Two Engines Damaged There was a slight collision on the railroad near Moanalua yesterday alternoon, but nobody was injured and the damage was slight. The east bound freight collided with a work train stationed a few miles out of Honolulu.

Both engines were damaged som what. One will be in service again to day and the other will be laid up less than a week. The work train engine was at a standstill when the collision happened. Signals were out, but th freight train was on a down grade and there had been a shower, which mad the tracks slippery. The road way opened again in about three hours. A report was around town that there had opened again in about three hours. been a genuine "head-on" collision with disastrous results.

FIRST IN FIELD

Citizens to Decorate Elaboratel for the Fourth.

Street decorations for the Fourth o July have already been commenced Two arches are being constructed. One is across King street at the corner of Nuuanu. This is being put up by Lovejoy & Co., and Peacock & Co. This arch will be Ionic. The words "Hawaii Nei" and "E Pluribus Unum" will be worked out at the crest. In the center of the bow there will be a large eagle mounted upon a shield draped with

flags and bunting. The other arch is being put up at the expense of Jas. Dodd and Chas. Mc Carthy, near the corner of Fort and Hotel streets. This will be something First Regiment National Guard of after the style of the one on King street. It will be draped with flags, with a spread eagle and crossed cannons at the crown.

Walter Pollard, who was formerly with the Orpheum, is in charge of the work. He is also building two floats is to retire. When he ceases control he for the parade committee. One is a will have been at the head of the inlarge shell decorated with palms. Upon the shell will be emblazoned the words "Pearl of the Pacific." This one is to typify Hawaii. The other will represent "Columbia" and will be formed of a large canopy of red, white and blue supported by pillars.

Col. Jones reports that everything points to one of the best Fourth of July parades ever held. Both the N. G. H. and the Artillery will turn out en masse. There will be a number of

SMOOTH HARRY.

Young Man Departs After Bilking Friends.

Harry Arnold, who first came to the Islands with the Elsie Adair company abut three years ago, quietly departed by the Coptic, leaving a wife whom he but lately married and leaving a painful void in the treasury depart-ments of a number of friends. This is a great surprise and a genuine shock to those who knew and liked the pleasant, intelligent young fellow and had confidence in him. Walter Pollard says he loses over \$250 cash by Arnold's "getaway," and there are others. The wife is left without funds. Arnold engaged with the Hawaiian employ he made a trip to the coast.
On his return he was variously at
work about town till he signed with
Essay, Salutatory and Hawait's Legne months. During all of his tin assistant at the Opera House and he joined with the McVay company in that capacity, resigning from the Iron Works. When the McVay season came to a premature close, Arnold went in with Walter Pollard on Fourth of July decorating and float building. Arnold was a prepossessing, well-educated chap, handy at anything he undertook. no explanation offered of his peculiar and dishonest behavior. Says Walter Pollard: "I do not mind the money so much, but what Arnold did hurts me for I thought he was all right." Other people cheated by the young man say about the same thing. The deserted woman belongs in Honolulu.

SECOND LYING IN STATE

Body of Queen Dowager Kapiolani at Kawaiahao.

The body of Kapiolani will lie in state from noon today until midnight Saturday. The decorations of the thurch were completed yesterday. The display of kahilis is the greatest since the funeral of Queen Emma. Flowers and floral pieces kept coming in throughout yesterday. Some of the latter are remarkably beautiful. The ladies in charge of the decorations worked long and well, and the result is worthy of the effort.

The doors of the church will be opened promptly at 12 today. The crowd of people will be large throughout the day. Tonight native musicians will sing the mourning

training of the proper sort, a fine art Graduating Exercises Held in Gymnasiam Hall

Addresses and Music-Several Essays-W & s nith for the Trustess-Sucial Session.

The graduating exercises of the Kamehameha Boys' School were held last evening in the gymnasium of the Manual. This marked the closing of encement week of the Kamehameha Schools. The attendance was one of the largest of the week, the gymnasium being completely crowded. The essays and songs were particularly well rendered. Special mention may be made of the salutatory by James Burgess. It dealt with waii's legendary history, and the tale of the origin of man was a remarka-ble parallel with the Mosaic story.

The address of the evening was made by W. O. Smith, representing the trustees of the institution. He called the attention of the members of the graduating class to the objects of the great trust created by Pauahi Bishos. She intended to provide for the education of the Hawaiians in a liberal manner. The trust was an important one, and was growing in value rapidly. He thought that in the future there would be a university established by the trust, and all branches of education would be introduced. He read to the class extracts from the will, and the codicils to the will of Mrs. Bishop, declaring · its purposes, which were not only to give the students education of a general character, but industrial ed was especially needed by the natives. The endowments established by Mr. and Mrs. Bishop were of far-reaching consequences, and their value in the future would be far larger than at present.

The different numbers of the program were as follows:

Invocation Rev. E. S. Timoteo Song, Hawaiian Hymn.....Newcomb Kamehameha choir.

endary History ... James Burgmes Essay, "Welding" ... Henry Martin Song, "Amici" ... Anonymous Octette.

MADE 21 DAYS

Period for Quarantine Against the Plague.

Call for More Hospital Help Made by a Sheriff-Sanitation of Reform School-New Doctors.

(From Thursday's Daily.)

At the meeting of the Board of Health yesterday President Cooper reported that the cabin passengers of the City of Columbia had been released from quarantine at noon Tuesday. The steerage passengers had been sent to Quarantine Island, where they will remain until a thorough investigation has been made. A general discussion regarding the plague then ensued.

Dr. Day gave the information that according to the last medical report the period of quarantine had been extended to twenty-one days in the Mediterranean ports. The greatest danger of infection is always among the steerage passengers, and medical reports always recognize the fundamental difference between the two classes of passengers.

It was moved and carried that the period of quarantine against the black plague be extended to twenty-one days from the time of arrival of infected is filled, for the most part with native ship or leaving of an infected port.

both cabin and steerage passengers, or only to the latter. It was finally deemed best to retain the present sys-

Dr. Emerson reported that he had School in view of the fact that there have been several cases of typhoid fever in the institution. He found the sanitary condition in perfect order, no changes being necessary.

C. B. Reynolds called the attention of the Board to the unsanitary condition of Lahaina. The water is poor, and sections of the town are crowded with Japanese and Chinese. The secretary was instructed to write to the authorities and inquire into the condition of affairs.

The report of the slaughter house showed that 158 bullocks, 485 sheep and 165 swine had been killed since last meeting. The fish report gave a total of 56,298 fish consumed during the week.

Food Inspector Shorey reported that he had examined specimens of butter and had found that extraneous coloring matter had been used in some cases. In the milk report special attention was called to the milk sold by a certain Japanese. The specimens contained less than 9 per cent solids, and the vendor had confessed that he out two quarts of water in every gallon of milk. The Board advised that he be prosecuted at once.

The application of Dr. Charles Mc-Nulty for a license to practice was favorably considered.

A permit was granted to Father Victor to go to Molokai for one month on trial, upon recommendation of Brother Dutton of the settlement.

Recommendation was made that Dr. Schware be granted a medical license Dr. C. R. Blake, of Waipahu, made application that he be appointed physician pro tem for Walanae district, made vacant by the transfer of Dr.

Sandow. Dr. Thompson, who was formerly employed with the Board of Health and who is now in California, made application for some position under the Board. The secretary was in-

structed to tender Dr. Thompson the in token of her youth. position of physician of Walanae. A letter from Dr. Moore was read, stating that the reports regarding the typhoid fever epidemic would be sent at the end of the month. He reported that the cases of fever were de-

creasing. A letter from Sheriff Andrews, of that additional help was needed at the Hilo Hospital. It was voted by the during the prevalence of the fever ep-

idemic. The Board then accepted tenders for supplies for the settlement at Molokal. The following were present at the meeting:

President Cooper, Secretary Wileux, G. W. Smith, Dr. Emerson, Dr. Day Agent Reynolds, L. D. Killipto.

Mr. Tenney As Buyer.

While on the Mainland Mr. E. D. Tenney, in addition to purchasing new vacuum pans and a crusher for the Ewa mill, bought the entire outfit required for the treatment of cane in every way at the new Walalua plantation, and shipments are to be made at earliest possible dates. The mill will be supplied by the Fulton Iron Works of St. Louis, and will be about the same size as the Ewa nine-roller mill, but will have many late improve-ments. Mr. Tenny bought material for the Waialua plant in perhaps ten cities, including St. Louis, Chicago, New York, Cincinnati, Jersey City and Philadelphia. Mr. Tenney is recog-nized as one of the closest and best buyers of plantation equipment in the Islands, being a practical man of long experience.

KAPIOLANI'S BODY

IS AT KAWAIMIAO. Remains Are Brought From Pusleilani to the City.

(From Thursday's Daily.)

The kahilis for the manifestation of mourning over the body of the dead alli of Hawaii wave again in old Kawaiahao church, that venerable structure so dear to the natives and foreigners alike. The royal kahilis droop aloft. Tears are shed. The little talk there is at times is in softest whispers. The church, below and in the gallery, A discussion followed as to whether either side of the bier of the late Queen stage. The program was gone through or not this provision should apply to Dowager. People come and go, but the

The remains of the late Queen-Dowager Kapiolani reached Kawaiatem of quarantining both steerage and hao church from Pualeilani, the Wai- mencement exercises. Creditable Essays Read - Special Music-Address by Fev. V.m. M. Kir gald.

The commencement exercises of the class of '99, Kamehameha Girls' School, were held last evening in the assembly hall of that institution. The room was crowded with people who were anxious to be present at the exercises, showing that another class had done with its school work. The number of graduates this year is small there being only four. They are Maria E. Maby, Louise Aoe Wongkong, Jane Nahiwa, Ellen Rose Pearce. This class, however, enjoys the distinction of being the first to complete the full normal course of five years.

The stage presented a dainty appearance in its drapings of blue and white, the class colors. In large latters was displayed the class motto, "Whatsoever thy hand findeth to do, do it with all thy might." Programs printed in blue ink on white paper and tied with white and blue ribbon were distributed among the audience.

At 8 o'clock the girls took their places and the teachers and trustees Hawaiians. The chief mourners sit on of the institution were ushered to the with in a most satisfactory manner. faithful intimate friends and retainers it was entirely lacking in the tedious and tiresome elements that seem to be at times an essential part of compealed to all because they dealt with subjects within the grasp of everybody. They brought out important points in the separate phases of a in each case, and spoke volumes for the good work of the school. Each young lady delivered her essay in a On the steps of the church Company young lady delivered her essay in a G, of the National Guard was drawn clear manner so that every word could be distinctly heard. It was a source of regret that the valedictorian, diss Maby, was unable to be present on account of illness. Her production on "A Girl at School" was read by Miss Helen Desha in a highly commendable manner. The singing sustained the reputation that is already possessed by the Kamehameha Girls' School. Two of the songs were composed by Miss Clymer, the teacher of music, and showed great merit.

The address of Rev. William M. Kincaid was listened to with rapt attention. He spoke on the value of having a purpose in life. A person without an aim is like a ship drifting rudderless on the ocean, without destination and with no answer to the INVINCIBLES 1-40. call of "whither bound"—a veritable PREDILECTOS DE 1-40. ship of the dead symbolized in Coleridge's "Ancient Mariner." RESOLUTIONS ARE WITHDRAWN

Graceful Acceptance of Defeat-Touch on Political Nature-President Paul Neumann.

(From Thursday's Daily.)

The legal gentlemen who are so keen to negative the provisions of the Territorial Enabling Act by which the Supreme Court Justices of Hawaii are continued in office for life and the Circuit Judges for tenure, have gracefully as possible retired from effort to use Every man on board had \$200 in gold tinuous. the new Bar Association in the cam- to his credit, and the Nipsic left plenpaign and will depend upon other local ty of money in Honolulu. means and such steps at Washington and elsewhere on the Mainland as may be decided upon. There was little, if any surprise at all when Mr. Gear arose in the Bar meeting yesterday and stated that he wished to withdraw the resolutions offered last Saturday condemning the portion of the Enabling Act referring to the Justices and Judges. It was known very generally by the middle of the day that a canvass had settled the fate of the resolutions if they were brought before the meeting. Their defeat by a large majority was certain. In fact it was thought they might be substituted by resolutions of exactly reverse tenor and sentiment.

Mr. Gear said that he wished to withdraw the resolutions for the reason that the constitution of the Bar Association provided that it should not take part directly or, indirectly in any political issue. He himself did not be lieve the resolutions to be within the tabu scope, but to avoid possibility of dissension he would prefer to take them back. Permission was granted by unanimous vote. Mr. Davis, who had seconded the resolutions last week, gave his consent to have them taken from the meeting. Mr. Kinney re-marked that he did not wish it understood the resolutions were obnoxious by being denominated by some people as of a partisan nature. He thought them proper for consideration of the association and if they were adjudged political the course taken might prevent other resolutions, perhaps of an in prison.
Opposite expression on the same subject, from coming within the rules.
The record reads that the resolutions offered them.

The officers of the Bar Association

presidency, but declined to permit consideration of his name.

refusal of Judge Davidson to continue as temporary president of the organ-ization. He spoke briefly and earnestly on the subject. He said he declined to be active in the affair for the reason that he had never been a partisan and that he understood at the beginning that the society was to be a Bar Asso ciation pure and simple, without any political feature. He found the trend of actions objectionable to himself and was indisposed to alliance with a parnot make a speech. He is a good presiding officer, not lax, nor yet too strict. It was his hope that the meet-Neumann was elected president he called upon Judge Davidson to make was performed in a graceful manner.

tion of the Bar Association is a pro-vision to the effect that the society is to be strictly non-political and that it shall not be used for political purposes. There are to be regular meetings every

Mr. Humphreys offered a resolution forbidding the practice of paying commissions. No action was taken on the resolution, though support was offered

The president was authorized to appoint a committee of three on by-laws, but deferred mention of the names.

Mr. Gear did not present the reso-lution of which he had given notice. This is another form of the petition asking the President of the United States to request his Attorney General to look into the four cases in which the Supreme Court of Hawaii has ruled that the constitution of the United States does not yet wholly apply here. The Supreme Court room was well

PUALEILANI

of a Royal Robe-Was the Pall of the King-Kahills.

(From Wednesday's Advertiser.)

Between the hours of 9 and 4 yesterday the body of the late Queen Dowand remained there for a long time re- ager Kapiolani lay in state at picturpairing. She took on a big lot of esque Pualeilani. The stream of visitors who wished to pay their last token nagh was the lucky bumboat man, of respect to the dead chiefess was con-

> The home where the alii breathed her last is one of great picturesque beauty. The entrance is through long driveway, over grass and under shady trees. The foliage is luxuriant being scattered with lavish hand throughout the grounds that encircle the little home. The latter is plain and unadorned. No one would have thought, upon looking at it, that it was the home of one whose head had worn the crown. It is unpretentious, but it is comfortable and that was what the late dowager most wanted. A large eocoanut palm in front of a little two-story, latticed cottage, aged and weather beaten. This cottage was the home of Kapiolani.

Through the driveway the visitors thronged. At the entrance to the path they were met by two courteous Hawallans, one venerable with age, the other in youth, who, with silent courtesy pointed the way to the room of the heart is an ugly wound, long and death. Up the stairs another of the deep. The wrist of his left hand petty chiefs, with his insignia of rank

On the second floor in the reception at a late hour last night it was thought Kaplolani. The robe of state which that death would result from loss of was worn by her when she was crowned with Kalakaua was draped and fractions of wages, are of the kind about her. Deputy Marshal Chillingworth The sweet, womanly dignity, that charwith trusty aides has taken up the acterized the dead dowager both in chase, and it will be but a short time public and private life, still existed before the knife wielder will be landed and gave a lifelike appearance to her features. About her head is a piece of

the irregularities of procedure were will kill myself."

The above is the story told Deputy little. Two or three sections of the constitution, reported by Chairman were descussed at some witnesses. Captain Spillane and witnesses. Captain Spillane and solemnity and reverence of the occasion. At times the wail and the chant Last night native singers sang the songs of mourning through the watches of the night. The body will not lie in

tate today.

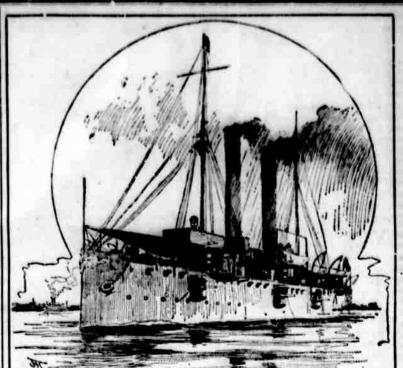

Among those who viewed the remains yesterday were President and Mrs. Dole, Mr. and Mrs. H. M. Sewall. Consul and Mrs. Haywood, H. B. M. Commissioner Hoare and daughter, Minister and Mrs. Mott-Smith, Attorney General and Mrs. Cooper, Chief Brown and Deputy Marshal Hitchcock, Commander Merry, Col. Mills, Capt. Slaker and wife.

The remains of the late Queen Dowager will not lie in state today. To-night the body will be brought from Punleilani to Kawaiahao church. From noon of Friday to midnight Saturday the church will be open to the public. Sunday afternoon the funeral will be

held. The body will be borne to the grave on a catafalque such as has hitherto Sigel's Syrup, he says: —'In a week I been used at royal funerals. This has could eat well, and the food no longer already been built by W. W. Wright, distressed me." His trouble was of who, with hard work succeeded in finishing it in a day. It is fifteen feet high, and the body platform is four by ten feet. It is made from hardwood.

Hawaiian Rifle Association.

A meeting of the directors of the Hawaiian Rifle Association, with President Rothwell in the chair, was held last evening. It was voted to have the mid-summer semi-annual shoot on August 12, a Saturday. All riflemen are

WARSHIP ON THE MISSISSIPPI. Warships don't happen every day in the middle west, and consequently the trip of the cruiser Nashville up the Mississippi as far as St. Louis attracted considerable atten-tion. Enormous crowds gathered at all the cities and towns by which Uncle Sam's sea fighter passed. Captain J. W. Bryan, a veteran steamboatman, piloted the Nashville.

HOW IT IS.

In the streets of the town where live I sometimes meet a poor fellow who is so badly off that his appeal for a penny or two is hardly to be resisted He has lost both his legs above the knees and punts himself along the pavement with his hands, like a load ed barge in shallow water. Thank Mercy, one doesn't often see human hulks like him. Where there is a single instance of a man having lost both legs or both arms there are a dozen where only one limb of the pair is where only one limb of the pair is missing. And where there is a single case of the latter sort there are a hun-dred cases of people who are lame, or more or less disabled, by disease or minor injuries which are scarcely noticeable, yet in the long run serious to those so afflicted.

Consequently when we sum up both classes we perceive that it isn't the total wrecks and the incurables that are most expensive to society, but the prodigious host which must work, and does work, yet always under difficulties and against hindrances. Men and wo-men regularly employed, but who are way, thus losing fragments of time in this way in one year in England is immense. And so far as the cause of all this is disease, and not accident or born bodily imperfection, it is almost always preventible and generally cur-Look at this, for example, and ake heart.

"In the spring of this year (1897)," the writer says, "my health began to fail me. My appetite was poor, and after meals I had pain and weight at he chest. I could not sleep owing to the pain, and I got weaker every day. had so much pain that I dared not eat, and rapidly lost ficsh.

"I was in agony night and day, and often sat by the fire at night as I could not rest in bed. I had a deal of muscu-lar pain, particularly in the arms. I gradually got worse and worse and in two months, lost two score pounds

"I saw a doctor who gave me medicines and injected morphia to ease the pain; but I was no better for it. Then met with a friend who told me of the great benefit he had derived from the use of a medicine called Mother a Sigel's Syrup. I got a bottle of it from The meeting at which the organization of the Bar Association of the Harwight and told the latter to go dated with decorum and in order. The parliamentarians had an inning and the irregularities of procedure were said that if "Arthur was badly hurt I were filled with peonic and the irregularities of procedure were said that if "Arthur was badly hurt I were filled with peonic and so not in the part and marie and darkness. While fleeing the fugitive were hung about. Among these You are at liberty to publish this let-ter as you like." — (Signed) William ter as you like." Bridge, Grocer and Baker, 65, Bridg-man Street, Bolton, October 5th, 1897.

Here we have an illustration of the proposition with which this article sets From Mr. Bridge's account of his own case we see that he lost a considerable time from his business. How much that represents in money he does not say; nor is it important to the argument. For two months or more lost from his business practically he lost from his business and what that all he was worth to it; and what that situation would have signified, had it | Carl Ontal. | been indefinitely continued, any intel- Song, "Only Rememberer." ligent person can imagine. Men frequently become stricken with poverty is with filness in that way. However, well any business may be managed in an emergency by others, it is not to be supposed that it gets on as prosperously as when the proprietor is himself at the helm. And he cannot be there while he is suffering agonies from disease. This is true even if we make no calculation of the direct ex-penses created by illness, nor of the suffering experienced — the latter not computable in terms of money.

Now, please remark how quickly Mr. Bridge was cured of his allment—bad as it seemed and really was. Dating from the time he began using Mother for which this preparation long ago proved itself a specific. Had he known of and employed it when the attack began he would have lost no time, feit

The lesson of the case is this: indigestion is a common complaint, and dangerous also when neglected, the remedy should be at hand for immediate use when needed. The more valuable the treasure the more strict should be the guard over it. And health is a jewel compared with which rubies are as the glass beads of sav-

Addition to Fleet of the Chairs Inter-Island Co.

Made a Satisfactory Trip From San Francisco - Officers-Brought Cargo-Hawalian Flag

(From Thursday's Daily.)

The new Inter-Island steamer Hueneme is at Fort street wharf discharg-ing a general cargo from San Francisco. She arrived yesterday morning and has about 400 tons of merchandise, including 1250 sacks of rolled barley. 420 sacks of bran and 181 bales of compressed hay, for C. Brewer & Co. The Hueneme sailed from San Francisco on the 17th inst., the same day as the Coptic, and brings no late news. As soon as discharged the Hueneme will be overhauled for the island trade and probably be renamed the Niihau. She is about the same dimensions as the Kauai and is a big carrier. Capt. Victor Johnson, who commanded the Hue-neme on the trip down, returns to San Francisco by the first steamer. The Hueneme was built by Bendixon at Humboldt, Cal., in 1897. Her engines were built by the Fulton Engineering and Ship Building Company of Francisco. She is 148 feet long, 33 feet 6 inches beam and 11 feet 2 inches depth of hold. Her net tonnage is 201 tons. She had no passenger accommodations and none will be built though the cabin accommodations will be somewhat enlarged. Capt. Johnson was assisted by D. Lee, first officer; W. Spinney, second officer, and Chief Engineer Diechman. The boat's company numbered sixteen all told.

The Hawaiian flag flies from the Hueneme, she having been granted that registry in San Francisco.

"KAM" Y. M. C. A. RALLY. Address By Kev. G. L. Pearson and a Social Evening.

The rally and reception of the Kamehameha Y. M. C. A. was held last evening in the gymnasium of the Manual. The attendance was large, and all enjoyed the social spirit that pervaded the entire evening. There was an entire absence of formality and conventionality, and the scholars proved themselves good entertainers. Rev. G. L. Pearson's audress was appropriate for the occasion, and was appreciated by all present. The different numbers were as follows: Song

If there are reasons for turning the present judges out of office they existed when the Commission was in session here. But no effort was made to influence the Commission, and the Commission was informed on all sides that the present judiciary was most acceptable.

What, then, has suddenly stimulated members of the Bar to sudden hostility against the judges? Why do they propose to make up a Bar Association, and club the present judiciary with it? The proposed law of Congress, retaining the present judges in office has been before the public for some months, and there has been no opposition to it.

If the movement to get them out of office is due to several recent decisions, which are not held to be correct by some attorneys, then it is a direct blow at the independence of the judiciary. It means the dragging of the Bar Association, if formed, into the ance. The most available source is ident asked Congress to strengthen darkey who was never happy unless meanest kind of politics.

> Lord Beresford gives much valuable information about the Chinese. He of the Established Church in England says that they are not overtaxed, but that only one-fifth of the revenue paid by the people is applied to public use. The other four-fifths is taken by the officials. Lord Beresford says the Chinese are not effete and past saving. The merchants are honest, and the people are, also, honest and industrious; "sound to the core," he says. They suffer from a traditional and rotten system of government.

He believes that if Great Britain, with the aid of the other nations, would reorganize the military and police system of the country, as Sir Robert Hart has organized the customs service, the Chinese would, in time, take the form of a compact nation.

The division of China, through the action of Russia, and the indifference of the United States, must result in different "spheres of influence," which for the time being, will tend to prevent any desirable national movement. The danger is, Lord Beresford says, that the people of China, realizing the weakness of their own rulers, will fall into rebellions and insurrections, and peace, in that event, can only be established by the blood and iron policy of the Occidental nations.

THE BAR ASSOCIATION.

needed moral advice and medicine. and Cain needed a lawyer to defend

Judging from the large number of Charles Beresford, is one of the important books of the pear. It treats professionals here, the Fall must have Makes Well been a heavy one in these tropical ments of the century, and the author parts, and the thud of it startling. It is a man who has the respect and ad- is clearly not for their interests to restore the purity of the Garden of ple. The Associated Chamber of Com. Eden, as it would take the bread out of their mouths, as a class they should be profoundly grateful that the "Fall" occurred and gave them an opening for business.

The lawyers have now organized themselves into a Bar Association, and it will be a most excellent body cally disintegrated. In other words, for superintending and watching legislation. It must not be understood serve, measure, and mark the drifting that it is at all in the nature of a trust, because lawyers dislike trusts. ways uncertain, and the way judges will decide a case is, in many cases, a "toss up," the certainty of the fee should remain the unchanging foundasumming up of the matter which has tion upon which the profession stands.

Dr. Johnson said the lawyers were their parts they changed their cloth-"open door," or in other words, free ing and waited for new engagements. ENGLISH OPINION ON THE FILIPINOS.

(London Army and Navy.)

So it seems that the Spaniards, though wrong about many things. were not far out in their estimate of what would happen to the Americans in the Philippines. They said that when the wet season came round, the new masters of the islands would find that they had won all the battles, but that the Filipinos had won the campaign. This seems to be pretty much what has happened. After a long string of engagements, in which Aguinaldo and his men have been constantly beaten, and the Americans have been steadily advancing, the second have found that they had to evacuate most of the places they had occupied, while the first are back in the position in which they were when the fighting began. Now, put it as you please, this is failure, and it promises badly for the future. The American Government has been told by its generals that 100,000 men will be needed to occupy the archipelago effectually, and the estimate seems by no means

In the meantime it appears as if virtue had a good deal to do with making trouble for the Americans. They have tried to put a stop to gambling and cock fighting in Manila, and have also set about enforcing cleanly habits of the people. This last effort is highly to their credit, and will ultimately be for the good of everybody; but it is also no doubt most trying to the temper of the Filipinos for the moment. When people have been accustomed since time immemorial to the indescribable habits of the natives and their Spanish masters in sanitary matters, it is grievous to be reformed by order all at once. As for gambling and cock fighting, no doubt they are bad vices, though our ancestors of the eighteenth century contrived to make both of them consistent with a great deal of success in war and commerce and colonization. But to prohibit them to a Manilaman is as if one were to forbid the inhabitants of London to on Hawaiian matters during the next drink beer, sing music hall songs, or session. The probabilities are that the bet on football matches. The Filipino's chief joy in life is cock fighting. The Advertiser stated that by Joint He carries his fighting cock about under his arm. It is the friend and honor of the family. To prevent him from setting it to fight (which, after There is no power whatever given to all, the cock enjoys every bit as much the President to suspend them, even as his master) no doubt appears to the if they are useless, provided they do poor Filipino in the light of a cruel oppression. Speaking seriously, an inthe Resolution. As no one claims that terference with the established habits of a people is almost always injudicious. Macaulay has said that if James II had carried out his scheme of shutting the London coffee houses, he would probably have precipitated the rebellion, for the irritation caused by an act of tyranny is not always proportionate to its dignity. It is really very probable that a good deal of help which has given to Aguinaldo from within Manila is due to irrritation at this interference, which is at any rate "very previous." The Americans ought to have waited till they were masters which occurred recently at the age of of the country before they began re-111 years, in South Hungary, her rela- forming the natives. Allan Herbert Spies Out Spots for Small Farmers.

DISTRICT

What Dr. Carter is Accomplishing at Hauula-Proposals for Disposition of Public Lands.

Below is a copy of a report made by Allan Herbert to Minister King on a visit to the Koolau districts of this island. Mr. Herbert is one of the agricultural commissioners:

Rapid as has been the development on this, or west side of Oahu, the great resources of the thousands of acres of rich land for twenty miles or more between Kahuku and Walkane yet remain almost untouched.

Our Government and people should build, own and operate a railroad from Kahuku to Honolulu via Kalihi valley.

In the early 70's the writer spent a day in this valley with the late Sir Wiley Thompson, naturalist and chief of survey of H. M. S. Challenger, and he suggested that by running an open cut on the Honolulu side into the pali at the head of the valley the tunnelling would be short, by an easy grade up the valley and through the pali.

Ahumanu, Kaneohe and Heeia could be reached in less time than to Pear City. Thousands of happy homes could then be made along this road for thirty Kihei is sold at \$10. But it is the ex- branch Walhiwai. There are also miles or more. No one man should be allowed to hold more than from five at \$10 and even less. to fifty acres of Government land. A limit that a selection may hold should be so fixed as to encourage a desirable undertaken on any stock market and same as that of the highest point class of small farmers, who, when not engaged in work connected with their ertaken here."-Yesterday's Advertislittle farms, should be employed, as far er. as possible, on co-operative road work in their neighborhood. By such roads under Government control we could have our dairy products from Ahunanus. At Hauula Dr. Carter could load once how castly and roads at the hads.

The distances were taken from the map, are only approximate but a like the safety of the town. All readers, and the dealnu. At Hauula Dr. Carter could load one car every day in the year from his land, and the hundreds of little

By this method of dividing up the land in small sections land speculation This was the ruling price, though thirwould be made unprofitable. We all ty shares were sold at \$11.75.

know that the farmer uses land for The raid on Olaa continues, with production and the speculator for ex-

Here we find in Dr. A. B. Carter a years ago he purchased the homestead was taken in exchange for land. of the late W. C. Lane, 100 acres. Most sea, is planted with tomatoes, chill, closed yesterday at \$90.50 bid and corn, beans, peppers and other stand-\$92.50 asked, with a downward tendard vegetables. On the hill sides are ency. several acres in papalas. Dr. Carter able stocks are liable for in the neighborhood of \$1,000,000 in cash during \$150 dollars per acre. He has twenty-the coming ninety days. The conserfive acres in rubber, coffee, cocoa, ba-vatives say that in the course of this nanas, pineapples, vanilla, tobacco, cot-period there will certainly be some nanas, pineapples, vanilla, tobacco, cotton, corn, beans and chilis as well as swine and poultry breeding.

Doctor. The juice is easily prepared. It is this: Is the original subscriber liable for assessments feet; from the junction to Halona formed by a strict record of new arriv-The papala is a great favorite of the lined some one-fourth of an inch deep with a sharp knife daily, and the twice caught and dried upon sheets of glass, of stock affoat in this condition. Some when it becomes at once a marketable commodity. The actice principle in the inal agent. Even the leaves are hung up and dried in the shade and sent to inal buyer. There is no end of nerv Europe for medical purposes. pulp, seed and small fruit of the papaia is fed to pigs and poultry. Carter says one acre of papara will feed and fatten ten bogs.

Tomatoes not sent to Honolulu market are made into catsup and peppers into the well known and favorite cream of pepper. A valuable oil is made from the kukui nut. The nut is steamed, cracked and the oil extracted. The shell is used as fuel to generate steam. The gathering of this nut gives employment to a number of natives men, women and children.

Dr. Carter says his 100 acres of land nets him \$150 a year now and that in the one day, that it was being bought two years more he will bring it up to \$500 per acre. Among other steps taken to accomplish the best results is the manufacturing on the place of canned and preserved fruits and vegetables in glass and otherwise. The excellency of our tomatoes and peppers has been amply demonstrated.

GOVERNMENT LAND AT HACULU On 1576 acres the least expires in 1904. This tract of rich agricultural land extends from the sea to the top of the mountain ridge. It is about a mile wide at the sea where the Government road crosses the land. The soil is very rich with abundant supply of water from the streams which are renning nearly throughout the year. This land is under more to a had of natives, and only a small portion cultivated. est is in a good state of preservation. We suggested to the natives that they surrender their lease, on condition that they be allowed to take on small homesteads (kulmanaar on the 99 years) then fence off may 1000 in forcet, plant stin are forced to exceller the retail to be a fer in successful pear the men and limbed securities to get money to misgive the natives 576 gaves as home- assessments,"

HE SEES PLACES about a mile wide, we are told, to a narrow point half way up the mountain ridge, and is three and a half miles from Kahuku plantation in an easterly direction. On this land is a large fish pond and a lot of taro patches fed from springs.

To Corporation Control.

The Orpheum management changes hands today. This popular playhouse has been leased to a hui at the head of which is J. B. Cohen. These latter have incorporated, and all the stock has already been subscribed for There will be no changes in the personnel of the company. Mr. Desky has succeeded in establishing the house on a good paying basis, and now feels that he can devote himself to his other interests.

In the Drill Shed,

The Fourth of July ball will take place in the drill shed next Tuesday evening. The tender was made yes terday by Minister Mott-Smith and committee. The band will be in at-

Government to Take Possession of a Wharf.

Will Re-Lease It to a Company Waterfront Ownership-Pardone. New Power Source.

(From Thursday's Daily.)

At the Cabinet meeting yesterday morning the matter of the O. R. and L. Co. wharf was brought up. A report was read in which the decree recently handed down by the Supreme Court is noted. Minister King was instructed to carry out the plans of the Government as they were set forth in Col. Jones, and was accepted by the the notification sent to the railroad company two years ago. He will immediately take over the property, after which it will be again leased to the ailroad company. The point involved is absolute Government ownership of the water front.

> Applications from Hering and Freithe reef, were read and continued over.

A report was read from Superintendent Rowell and Engineer Buck regarding the utilization of the Waiahole water supply by the Government for was as follows:

"The main stream divides into two branches at a point about 4000 feet above the ditch head. The south branch is called Halona and the north number of small feeders coming from the palis on either side. We ascende the south branch to an elevation of 744 "There will be interruption today of feet at the foot of a fall which was esone of the boldest manipulations ever timated to be 75 feet high, making the

STEARNS BUCK,

Government Electrician DR. J. H. RAYMOND.

Local Man Called to Chicago Uni-

versity Chair. Dr. J. H. Raymond, one of the leadog practitioners of the city, left yesorday for the coast. His arrange ments for departure were made very by the Alameda mult of last week.

Dr. Raymond is catted to San Francelesco by the James surgeon, Dr. Nicholas fished, who is now delivering the Lame source of lectures in the Cooper Medical Institute. Dr. Senn has long form regarded as one of the foremost surgeons of the world. He gave up a practice estimated at from \$80.000 to Druggists and Bealers. curriedly, he having been summoned

\$75,000 a year to go into the United states forces during the war with Spain, and is said to be now a candidate for the Governorship of Illinois. Dr. Senn is the bearer of an offer to Dr. Raymond to accept a chair in the medical department of the great University of Chicago. Dr. Raymond came to these Islands from Chicago and naturally feels highly elated or complimented to receive the call which is in the hands of his old friend Dr. Senn. Dr. Raymond will talk the matter over with Dr. Senn, and then, returning to his Honolulu home, will decide upon accepting or declining the Chicago position. The people of Honolulu would be extremely sorry to lose Dr. Raymond and his wife.

EXERCISES FOR FOURTH

Best of Singing-Hunt for Speakers Still On.

Annis Montague Turner has had the literary and musical exercises at the Opera house on the Fourth of July. The lady is not only Hawaii's most popular vocalist, but is a singer of international fame. She has a thoroughly trained and tried voice of great range and of the most sympathetic tas, two men who are serving time on and expressive quality. It will be keen pleasure to all to hear her sing on the Fourth.

President Dole has thought it bes to decline to speak publicly on the Fourth, or, as he expresses it, to beg to be excused this time. This will inlight and power in Honolulu. No ac- terfere with the plan to have the Prestion was taken on the report, which ident, Mr. Sewall, P. C. Jones and one other gentleman speak for the exer-

It has been suggested to the members of the committee on literary exercises that they look to the pulpit for more patriotic American or better speaker on an appropriate theme than, for instance, Rev. William Morris Kincaid. He has preached a number of sermons that would answer first rate for Fourth of July orations, and printing office. it may be that he will consent to accept the office. Another good man is the Rev. G. L. Pearson, of the First platform speaker, and is intensely American.

The committee is to have a meeting today and it is likely that at adjournment a speaker for the Fourth will be announced.

CHICAGO'S CLAIM.

Police Census Indicates a Population of Over 2,000,000.

CHICAGO, June 16,-"The population of the city of Chicago has passed the 2,000,000 mark, and, according to the latest police census, numbers 2,083,043,"

These were the words of Sergeant A. T. de Long, who is in charge of the Bureau of Records, and shows a general increase in Chicago's population of 200,000 over the official census submitted by Chief of Police Kipley in

"We have not made a house-to-house canvass," explained Sergeant de Long.

The number is utilized Department in making disposition of als and departures, the tearing away of old buildings and the erection of more capacious quarters and probable increase or decrease of lahabitants, as the case may be,

Statisticians regard these police re turns as reliable. Practically all of Chicago's 3000 policemen gathered them and each man knows his own beat and the people on it.

No Horse Faces. It was stated by an official yesterday that the Jockey Club had practically abandoned its project for a race meeting on July 4th. Mr. Rodelk has either sold his horses or taken them away. The Wilson-Cunningham string has been taken from the track. A number of other owners have removed their stock from the radius of starting possibility. The Jockey Club people are of the belief that it would not be possible to have a successful meet on July 4th, and therefore will not at tempt anything. There will be match race on the Fourth between Antidote and Amarino. It will be a mile dash for \$500 a side. Durfee is training Amarino, and the new owner s handling Antidote.

IT CURED HER COUGH.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before, have used many remedies without resiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gradifying results. The first bottle re-

Of the class exercises that in E. Enggoodness, with her usual grace, to lish by Principal Abbott was perhaps agree to sing on the occasion of the the most interesting to the audience. It was the development of a story in the German method, and the class aroused much interest by thei; keen and houghtful statements of the possibilities. The B Algebra under Mr. Tople, lately from California, and the C Geometry under Miss F. P. Rosecrans, the vice principal, each elicited much praise for promptness and correctness of work.

Of the toasts the best were "Our Lahainaluna Will Do," by Judge Kaattend the examinations.

Mr. Rosecrans laid great stress upor the spirit of the school, pointing out that the first purpose of a school must be to develop character. Next, that what is wanted in the education of Hawallans is what is best expressed by the homely word "gumption," an orator for the day. There is no includes enterprise, determination and ability to adapt means to the end in limits, a trial bottle at 25 cents. Don't hand. He claimed that Lahainaluna has been preeminently successful in cultivating both of these, giving instances of the latter in the repair of machinery in the ice factory and the

Judge Kalua's speech was at same time inspiring and amusing. He recalled the time when he sat in a corner of the old dining room which he Methodist Church. He is an excellent pointed out, the poorest of poor boys, platform speaker, and is intensely dressed in a white cotton shirt and a pair of pants made of ticking, fastened at the top by a string, like a tobacco pouch. He attributed much of his suc cess in life in to the training he had received from Lahainaluna, his Alma Mater, and that in spite of the fact that he learned no English there. If he had had such a training in English as the boys who had spoken that morning he would have been able to speak English as well as their principal him-

Taking up the aims of the institution Judge Kalua said that what we need is men who can think for themselves, not men who will say "yes" when told to say "yes," or "no" when told to say He thought the training the Labainaluna boys were receiving was making such men of them.

Judging from the past, more especially the past few years, in which printing press, ice machine, electric lights, a renewed dining hall, and a new shop had been added, he thought Lahainaluna was destined to do even more in the future than she had done in the past.

The exercises took up the entire day from 9 in the morning. A large number of people were present.

A rainfall of two inches has been re ported from Honokaa plantation, but the report did not cause a material advance in the plantation stock on the local market.

Down Again

in prices is the market for flour and feed, and we follow it closely. Send us your orders and they will be filled at the lowest market price. The matter of 5 or 10 cents upon a hundred pounds of feed should not concern you as much as the quality, as poor feed is dear at any price.

BEAR SCHEME

BOW Kinel Stock Was Hammered Down to \$10.

MANIPULATION

But 600 Shares Were Used by the Bold Operators - Down to Bed rock-D-s in Hand.

(From Weinesday's Advertiser.)

immediately after the closing of the sound Board of the Honolulu Stock Exchange yesterday there was a sale of 5000 shares of Kihel at \$10 per share. This consideration is the exact amount paid in and the seller is loser stamps and interest on his money. Seller was one of the original subscribers.

It is extremely doubtful if any more Kilbei is suid at \$10. But it is the expectation of the bear hui to buy today Honolulu Produces Its Share-This at \$10 and even less.

There will be interruption today of one of the holdest manipulations ever the first one of magnitude so far undertaken here

The escapase of the market will be well understood and the case with which a scheme for rise or fall may be engineered will be apparent when it is stated that Kihel has been forced from \$18 a share to \$10 by the use of but 600 shares.

It is only about ten days ago that the hai which launched the bear movement began operations actively. Kihei was selected on account of its popularity amongst both investors and speculators and on account of its wide distribution. It is held, in its assessable issue, by hundreds upon hundreds of people including many who make no observations whatever beyond reading the daily quotations. Kihei was firmiy established in the confidence of the public, but it was particularly vulnerable for the reasons presented. No other security is so generally held by strangers to the country, to the plantation business and to the methods of stock dealing. The plan of the manipulators was to ease the stock down gradually till it touched \$10 or below, purchase heavily, then force a recovery or rally by throwing out blocks to the brokers at advanced "asked" figures. The thing has been done on the coast and all over the Mainland with all sorts of stocks time after time, but had never before been carried out here. It was fresh and pretty locally.

The 600 shares used were placed in the hands of five or six of the brokers known as hustlers. The first day they offered at a point or two below \$18. The market for assessables was a trifle shaky at that period and nervousness was produced at once. This continued two or three days. Then for a few days the pieces of the 600 were offered

From the \$15 mark the master troke was made. The brokers wer instructed, in the usual confidence, to offer, both on the board and privately to sell at \$15, to take under consideration any offer and report to owners Now it began to decline nicely and the hui members patted themselves on their respective backs. It was a pretty thing for an outsider to watch. It is the belief that not a single broker knew how he was being used by the combine. The hui people are young in years, but they are keen, have money and have had considerable experience in deals of variety. They knew what they were doing. The stock would be offered at \$15 in two board rooms on Fort street and in public and private places between sessions of the exchanges. Bids would be made and reported back to owners. Sales followed as low as \$12.50, \$12.25. The hammering down continued with the wee block of 600 shares, but the lower extremities get cool quickly in this market and some of the holders outside the hui began to think it high time to get from under and \$12.50 and \$12.25 became ruling prices, though the transactions were small. Fear now took possession of some small owner, or perhaps, and more than likely, it was a bunch of hui stock. Anyhow twenty shares went at the second session of the Honolulu Exchange yesterday for \$11.75.

Within five minutes of this sale of twenty Kihel at \$11.75, the bear contingent raked in 1000 shares at \$10. was an effective and neat recoup, Persape it was too quick a buy. At any rate the secret is out and the raid is

Olas was given an unmerciful pounding yesterday. This was at the second phere would be of impracticable size, session of the Honoluin Exchange, and its friction would probably use up None was offered on the Hawaiian Board. At the rooms of the Honolulu Exchange there was a decided sensation over the Olaz drop. There has been poid on this assessable stock \$2 s share. The plantation has all along loco rated with the very best of the new ones. The corporation owns more one inches the corporation owns more and better had then any other company in the islands and is well organized with cludes backing or support. The stock was pol on the market by encomplete and reputable promoters. Since has been warring and weak-ching for several Auys. It was at one time at a crembing of good since.

ly, startled about everybody in the

There were then sold in an instant the and 200 shares at 75 cents and the lears grinned and the bulls roared. The in an instant more 150 more shares

and been sold at 79 cents. Bed rock was reached and the session ended and the brokers talked of the little stampede as they filed out.

On the street everyone talked of the dump in Olas, but no outside transacwere reported.

Opinion on the flurry is divided. Some of the people say it is manipula-tion, the same as the Kihel dealing of the past few days. Others declare that a few people who must have money are

making sacrifices. Mannalet, \$10 paid, is offered at \$7.75 on the Honolulu Board and at \$9 on the Hawaiian, with no sales. This may be another case of operating, though the call for a ten per cent assessment

on this stock is out. Impending assessments are on Maunalei, American, Waintua, Kihel and

one or two others. The gilt-edged, dividend paying stocks and Oahu, with first dividend yet to be paid, remain firm at about the prices of a fortnight ago. are no bargains in these securities Consequently there is no panic.

EVERY DAY FACTS.

Comes From Kawaishao.

What makes anything a fact? Isn't t an occurrence of statement that can undertaken on any stock market and be proven true and correct in every particular? What constitutes conclu sive evidence to the mind of a Hono-bulu citizen? Is it the statement of some one made in Texas or California? We think not, but when some of our own people make a statement and it is indorsed by many, there can be no question about that. Under these circumstances we call them facts, and they are every-day facts, because they are occurring every day. Don't take our word for what is said. If you are not satisfied, ask them; people don't make such assertions without good

The Rev. J. Nua of Kawaiahao in forms us.

"I suffered from kidney trouble which was, I believe, caused by my lifting heavy weights whilst young. Pains in the small of my back were one of the symptoms of my complaint My trouble extends back to the time when I was 28 years of age, and as 1 am now 49, that is a considerable period. During all this time I was subject to pains in the back. They continued despite the fact that I consulted several physicians and took numer ous remedies. No relief thus gained can be compared to the benefit obfrom using Doan's Backache Kidney Pills. I have got on wonder fully well since taking them. I am quite satisfied with the result, and shall always have some of the pills by me, even when going from Honolulu to other missionary fields in the South Pacific. There is no other remedy like Doan's Backache Kidney Pills for kidcomplaints, including backache."

It is important to get the same pills which helped Mr. Nua—DOAN'S BACKACHE KIDNEY PILLS. Therefore, ask for Doan's Backache Kidney

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes for \$2.50), or will be mailed on receipt of price by the Hollister Drug Co., Ho-nolulu, wholesale agents for the Hawaiian Islands.

LIQUID AIR.

as Power.

(Iron Age.)

Huxley once said that he had spent forty years trying to make difficult things plain. To that he attributed whatever of merit there might be in his literary style. The exact quotation escapes us now, but that is about the sense of it. The dis-tinguished president of Stevens Insti-Joking the Juniors—J. Cockett. that is about the sense of it. The distute of Technology, Dr. Henry Morton, has had the same sort of experience Moreover, like Huxley, he believes that "there is no alleviation for the sufferings of mankind except veracity of thought and action"; and he has taken a good deal of pains one time and another, to hunt out and expose unveracity and incompleteness of thought. Thus, he has become in some measure a specialist in exhibiting "en gineering fallacies" to the young men under his charge, and incidentally to a large public.

One of the neatest jobs of this kind that he has done is an analysis of some of the claims made for Mr. Tripler's liquid air. He shows by beautifully simple reasoning and clear state ment that (1) Mr. Tripler requires to make a gailon of liquid air twelve times as much power as a gallon of liquid air could possibly develop in an ideally perfect engine; and (2) that an apparatus to develop mechanica! energy from the heat of the atmosand its friction would probably use up a large part of the power it could de-look velop; and (3) on Mr. Tripler's own that showing his power will cost him 26 2-3 cents a horse power per hour, against from I cent to a cents per horse power for a steam engine.

The fireworks to be used the night of July 4 will be set off on the grounds of the Executive Building. At least title is the intention at present

time at a premium of good size.

Hives are a terribis torment to the neighbor is getting richer while he is frequency for the sound of \$1 was made to how the follows and to some older ones.

Donn's Gintment never fails. Instant fill the control of \$1 was made for too charge.

The ward mode, uttered most hasts chemist's 60 cents.

REQUIEM SONG.

By the bare mount high, with the

ocean nigh. Neath the loving watch of her people's guard. Where the drooping palms stretch

their loving arms O'er the royal bier of the Queen be loved-

Steeping, sleeping on.

From mountain domes and from grass thatch homes, From crowded city and forest deeps ome the heart-deep cry and the tear-

dimmed eye For the royal woman who rests and sleeps.

E'en the mountain rills on the wooded hills And crested waves of the circling

With each flower and leaf, voice the common grief For a noble life from its toil now

Crowning thy glory of royal birth And regal station of pomp and

is the life fraught proof of thy native

worth In the noble deeds of thy heart's rich dower.

And the loyal hearts of thy people true Wreathe leis of blessings and honors the queenly woman whose love

deeds grew To a heritage that shall never die.

On the hillside high, with the town

anigh. In the stately tomb of the royal dead With her life, rare kind, in all hearts enshrined,

And a people's "Aloha" upon her Sleeping, sleeping on. -G. B. M.

HAD A CLASS DAY.

The Kamehameha Cadets Play at Basket Ball

Yesterday afternoon's exercises at Kamehameha opened with a basket ball game between two teams from the Manual school. One was known as the Whites, the other as the Blues. After one of the best games seen on the campus the victory rested with the Whites. with a score of 10 to 2. The teams were made up as follows:

Whites-J. Hose, John Yates, O. Nauape, J. Sakuma and W. Vannatta. Blues—W. Searle, J. Pa. H. Nahaeu. Kanae and F. Amoe. Rev. S. P. Perry, umpire; J. Easkew

Class day was then celebrated at the Manual. The graduates this years are as follows:

Manual Course-Chas. F. Siemsen, Jas. Burgess, Carl Ontal, Jas. Up-church, Tom Cummings, John Cockett, Henry Martin, Simeon K. Kalua. Normal Course—Daniel Kaloi, William Herbert Abbey.

The program was extremely entertaining. The address of Professor Theo. Richards was full of inspiring and earnest thought and received hearty applause, for the professor is a warm-favorite with the boys. The es-Clear Statement Presented on Value known heights, and as a result their and replete with jokes and hits at each other's expense. The program in detail was as follows:

Prayer-Rev. Timoteo. Song-"Upidee" Anonymous

Octette. Address-Mr. Theodore Richards. Song-"Jolly Life" Anonymous

Glee Club. Music-"Espanita Waltz".....

Mandolin Club. Class Prophecy-Simeon Kalua. Planting the Tree-Address by Jame Upchurch.

Song and Yell-Class of '99. Music—(a) Atlas March .. Southwell

(b) Royal March Southwell Kamehameha Band. Flower Frolic—Members of the Class. Refreshments.

Acquitted.

Oda, the Japanese hackman, who was charged with manslaughter in the second degree, was discharged yesterday morning. Paul Neumann appeared for the defendant and Attorney Caypless for the prosecution. The defendant while driving a back on the 11th of June ran over a Chinaman, who died a few days after. It was alleged that death resulted from the injuries received.

WHY SOME PEOPLE ARE POOR

flad management keeps more people in poor circumstances than any other one cause. To be successful one must ahead and plan ahead so that when a favorable oppor-tunity presents itself he is ready to take advantage of it. A little forthought will also save much expense and valuable time. A prudent and and valuable time. A prudent and eareful man will keep a bottle of Chamberlain's Colle, Cholera and Diar Thosa Remedy in the house, the shift ices fellow will wait until noces of compels it and then ruin his best hose going for a doctor and have a bug doctor hill to pay, besides; one pays out 25 cents the other is out a hundred

The most effective skin purifying and beautifying soap in the world, as well as purest and sweetest for toilet, bath, and nursery. FOR THE SPORTS

Good Men in Training for Events of July 4.

The 100-yard Dash Will be Sensa tional-Moore to Run Bases-After Record.

The athletes are getting in trim for the sports scheduled for the Fourth of July. Spiked shoes are being brought out, vaulting poles polished up, and the youngsters are practicing for that greasy pole.

Of the field sports the 100 yard dash free for all, is the center of interest. There will be a number of starters. I is rumored that the soldiers have a man who is a flier and who will upset calculations. From the city it is known that Moore and Gorman will jump at the pistol crack. The former's ability has been proved on many a path, and everybody knows that "Jim" Gorman used to win everything in sight at picnics on the coast.

Moore will also figure prominently in the base-running contest. The present world's record is 14 2-5 seconds. Al thinks he can do better than this, and many people who have seen him hustle around the cushions in a fast ball game think likewise. There is no doubt but that the base

ball game between the Stars and "Kams" July 4 will be one of the best of the season. The honor of winning that contest is almost as much as carrying off the pennant. And then, there is the purse. The "Kams" were scheduled to play the Artillery tomorrow, but out of respect to the late Queen Dowager the former team declines to play and have notified the soldiers. The latter will, of course, agree to that instead of claiming the game forfeited.

SONG OF THE HOMEWARD BOUND.

(Coast Seamen's Journal.)

Oh! for a brisk and fresh'ning wind That follows the tall ship fast, That curls the crests of the sun-kiss

And strains the pitch-pine mast— And bends the towering mast, Whilst the dog-watch yarns go 'round And the chanteyman uplifts his voice In the song of the homeward bound!

The chorus ascends in time and tune And is caught on the rising wind, Till the startled gulls with fluttering

wing Fall off in the track behind-Fall off in the flakes behind, Where their shricks and screams are

drowned By the proud, loud song, the loud proud song. The song of the homeward bound.

Give me the midst of a stormy zone, Where the staggering sun swings

erboard, Predicting a heavy blow-

Sure sign of a heavy blow, When from windward comes the sound Of the thunder's roar to rouse the The song of the homeward bound.

Give me the man with the rich, round

When the wind is bellowing hard, As he looms his reach o'er the leading-A-hoisting a topsail yard-

Mastheading a topsail yard As the sail sets taut and round, And the word "Belay!" falls like 'Amen!" To the song of the homeward bound

Oh! the strange seafolk, the wild sea

That live on the trackless deep-That carry our commerce the world Wherever the wild waves sweep-

Where the wild waves ever sweep. To these let the toast resound. With a health to the sailor, a health

to the ship.

And a health to the homeward bound

HAWAHAN STOCK EXCHANGE.

freahment business. The pail bearers for the funeral or Sunday will be all native Hawaiian with the exception of Mr. Mott-Smith Minister of Foreign Affairs, represent ing the Republic. Prince Albert Ku-nulakea will be a pall bearer, which accounts for the ubsence of his name from the procession list.

WHARF AND WAVE.

The Hueneme is to be the Nithan Strong northeast breeze in the Maul hannel.

Hueneme is an old Spanish town in Southern California.

The German ship Wega sails for

nitrate ports next week.

Fine weather and no rain at La-haina. Very windy at Kaanapali. The Mauna Loa resumes the Kona-Kau route on the trip out July 21. The bark Diamond Head is loading

sugar for San Francisco at Kinau wharf. Twenty-six thousand three hundred and eleven bags sugar awaiting shipment on Kaual.

Thirteen thousand feet of lumber were taken to Kamalo and Maunalel plantations by the Mokolii yesterday. The City of Columbia is alongside Fishmarket wharf repairing prepara-

tory to her departure for Guam

Hongkong. New head gear has appeared on the persons of the inspectors of customs. Silk caps with gold lace. They are

neat and up to date. The crew which brought the Hue neme to this port from San Francisco returned on the schooner Lillebonne

to Port Townsend yesterday. Island vessels sailing today are the steamer W. G. Hall, Haglund, for Lahaina, Maalaea, Kona and Kau, 10 a. u.; steamer Ke Au Hou, Mosher, for Kauai, 4 p. m.; and schooner Lady, Martin, for Koolau.

There is a big gilded eagle with outspread wings just forward of the pilot house on the Hueneme. It is lifelike and a beautiful piece of carving and there were many who viewed the new steamer yesterday who hope it will re-

The island steamers arriving on and after Saturday of this week will not sail until the following Wednesday in order to give the officers and crews a chance to spend the Fourth in Hono-lulu. The Maui and Helene will be in Hilo on that day.

The Kauai, with a full cargo of sugar from Lahaina, arrived in port yester-day afternoon. The Kauai left Honoough weather.

Some thousand and odd dollars more will be spent for repairs on the steam-er City of Columbia, now on the berth for Oriental ports. She is loading 200 tons of rock ballast and sails direct for Guam and Hongkong as no trial rip is deemed necessary.

CLEARED.

Thursday, June 29, Ship Star of Russia, G. A. Hatfield, for Port Townsend in ballast.

Orpheum Show.

Another good house greeted the Orheum talent last evening. The opening sketch now on gives every member a chance. Dave Marion is a big sucess as the Italian "fiddler." He and Jim Post work well together and cause lots of fun.

The cake walk was the absorbing feature. The same couple that took part the first night, tripped and bowed and smiled. By the applause it was and "Willie" Howard were the favor-

Am. bktn. S. G. Wilder, Jackson, San oha, W. O. Smith and family, Miss Kelsters, Miss Brandes, Barton, Howard sey, Miss Wills, S. Kellinoi and wife, and Glorine are all doing good work.

Married.

AUSTIN-BARTHOLOMEW-In Honolulu, June 26, 1899, Miss Hattie Bartholomew to W. L. Austin, both of this city.

The first woman to be employed in these Islands as feeder on a cylinder press entered the service of the Hawaiian Gazette company yesterday.
